TECHNICAL BRANCH

MISSION

The Technical Branch is responsible for the development, establishment and maintenance of Agency-wide defensive audio surveillance security programs in the United States and abroad. The Branch also performs other functions in the audio field in support of Agency Security Programs. The Branch develops security systems utilizing technical methods.

FUNCTIONS

In carrying out the above mission, the Technical Branch will:

1. Conduct technical inspections to detect hostile audio surveillance of Agency activities.
2. Develop and establish audio surveillance counter-measures.
3. Develop and establish world-wide reporting procedures in the defensive audio field.
4. Make analyses of technical inspection reports received from world-wide sources.
5. Develop Training Programs in audio technical fields in coordination with Administration and Training Staff/OS and Office of Training.
6. Review Security Operational Programs in order to determine technical requirements.
7. Develop and establish equipment requirements and convert such requirements to technical language and schematics for procurement by the Agency.
8. Control and approve issuance of technical equipment used in searching for hostile audio surveillance plants.

9. Conduct research on existing and developmental equipment and determine modifications necessary for adaptation.
10. Conduct liaison within the Agency and with other agencies and, also, with private industry on current and new equipment and methods.
11. Render guidance to the Office of Security in the approval of requests to reveal defensive audio surveillance techniques to foreign nationals and governments.
12. Conduct special briefings as appropriate on defensive audio surveillance activities from a security standpoint.
13. Maintains a reserve of technical audio specialists in order to meet Office of Security requirements on a world-wide basis.
14. Furnishes support to DD/S (PPS) in his capacity as CIA member on the NSC Committee on Audio Surveillance Countermeasures.
15. Furnishes special technical support for the Office of Security on sensitive security activities.

PLANS, PROGRAMS AND TRAINING SECTION

1. Assures development of training programs for
  - a. U. S. Personnel with domestic and foreign assignments
  - b. Technical personnel
  - c. Foreign nationals.

In such training programs the application of countermeasures without compromising present or new offensive capabilities will be observed.

2. Prepares regulations and notices for use within the Agency in the field of technical audio surveillance inspections and counter-measures.
3. Conducts special briefings on offensive and defensive audio surveillance activities from a security standpoint.
4. Renders guidance to Chief of Branch in recommending for or against approval of revealing specific defensive audio surveillance techniques to foreign nationals and/or governments.
5. Furnishes guidance and advice, conducts studies and reviews and prepares progress reports for the CIA member of the NSC Committee on Audio Surveillance Countermeasures.
6. Furnishes support to OS/Training Officer and Office of Training in development of training programs in defensive audio surveillance fields.
7. Assists the OS/Training Officer in providing training and briefing of COMMO personnel on technical security threat to COMMO facilities through technical audio surveillance devices and counter-measures to offset such threats.
8. Responsible within the Office of Security for recommending dissemination to appropriate levels of the Agency current developments or discoveries in the defensive audio surveillance fields.
9. Performs other special assignments for the Chief of Branch.
